

# WATCHARA TONGYODPUN

**Address:** Chatuchak, Bangkok, Thailand

**Phone:** +66 65-701-9971

**Email:** [watchara.ddev@gmail.com](mailto:watchara.ddev@gmail.com)

---

## SUMMARY

Software developer specializing in full-stack development, designing and implementing scalable solutions for business applications. Proficient in both modern and legacy systems, with expertise in various programming languages and frameworks. Strong focus on efficiency, problem-solving, and continuous improvement. Passionate about adopting new technologies and driving innovative system enhancements.

---

## TECHNICAL SKILLS

- **Languages & Frameworks:** HTML, CSS, Bootstrap, JavaScript, jQuery, Ajax, TypeScript, React, Angular, Vue2, VBScript, ASP.NET MVC, ASP.NET Core, C#, Java 8+, PHP, Node.js, Go
  - **Databases:** SQL Server, MySQL, PostgreSQL, DBeaver, Oracle
  - **Tools:** XML/XSLT, Swagger, Postman, Git, GitLab, ClickUp
  - **Languages:** Thai (Native), English (Basic)
  - **Certifications:** IC3 Digital Literacy Global Standard 5 (GS5) by Certiport, Automate Tester Bootcamp 2025 by Gosoft Academy
- 

## EDUCATION

### **Bachelor of Science in Computer Science**

Nakhon Pathom Rajabhat University

(Aug 2018 – Aug 2022)

**GPA:** 3.40

**Project:** The Development of Primary Care System for Analyzing Health Information

---

## WORK EXPERIENCE

### Probit Digital Co., Ltd.

**Position:** Programmer

**Nov 2024 – Present**

- Developed and maintained internal systems for Thairath Group, including Employee Self Service (ESS), Thairath Logistics (LMS,WMS), Thairath Budget, and Asset Management Systems.
- Utilized Angular 5+, Vue2 Options API, .NET 8 Core API, ASP.NET Framework MVC, Java 8+ Spring Boot
- Contributed to system improvements, streamlining operations and increasing efficiency.
- Collaborated with cross-functional teams to ensure seamless system integration and high-quality project delivery.

### Max Savings (Thailand) Co., Ltd.

**Position:** Software Developer

**Dec 2021 – Sep 2024**

- Developed Virtual e-Office/ERP systems for government and private organizations, including modules for e-Document, Accounting, and Finance.
  - Worked with Classic ASP (VBScript), XML/XSLT, and ASP.NET MVC, SQL Server (SSMS) as primary technology stack.
  - Optimized backend processes using Queue design to manage data efficiently.
  - Maintained project legacy systems to ensure proper functionality.
  - Utilized ASP.NET Core and Linq, implementing Queue design to manage data flow in backend systems.
-

## Projects

### University Project – Primary Care System for Health Data Analysis

#### Description:

Developed a web-based community health information system to support Village Health Volunteers (VHVs) in collecting, managing, and analyzing public health data for Primary Health Care (PHC) services. The system streamlined data entry and included analytical tools to help identify health trends in rural areas.

#### Technologies Used:

ASP.NET Web Forms, Bootstrap 4.6, PostgreSQL, Microsoft Visual Studio Community 2019

#### Responsibilities:

- Designed and structured the database schema
- Developed the front-end using Bootstrap for responsive UI
- Implemented backend CRUD operations and integrated data processing logic

#### Outcome:

Enhanced data accessibility for VHVs, reduced manual reporting time by 30%, and enabled more efficient, data-driven decisions for local healthcare initiatives.

---

## ADDITIONAL INFORMATION

#### Soft Skills:

- Problem Solving
- Adaptability
- Time Management
- Teamwork
- Research

#### Hobbies & Interests:

- Passionate about learning new knowledge and emerging technologies, especially in areas like cryptocurrency
- Enjoy listening to tech-related podcasts and staying updated with the latest IT trends
